Danny

Well you came to the right place then honey.. But tell me. What kind of girls do you like. The pretty delicate bimbos you see at the resort? Or perhaps you're a fan of women with more voluptuous and muscular offerings?

RIYANA THE SECURITY LADY

I had a lovely chat with Riyana, the security lady at the disco bar. Apparently she knew Daniel since he was small. She thinks someone is behind his disappearance.

RESORT CRISIS

I just met up with Diana the general manager and her secretary Lucy. Looks like the crisis in the Bikini Resort is worse than I expected. I also learnt that the previous handyman was named Luke.

ELENA AND LIZZY

I met two of the resort guests at the clinic. Elena seems rather unpleasant but her friend Lizzy was very sweet. I hope to meet her again soon!

Right now, the game is just a little over an hour long. There are several locations you can't visit at all and the game kind of ends abruptly at the moment so there definitely needs to be some more content added in the future but if I'm judging the game just based off of it's current state and price point, I have to recommend it.

The time I spent with it was fun, I was enjoying the story (for the most part), and generally would like to see where this is going to go. I'm definitely invested now that I've experienced the abrupt end. I just hope they get the chance to continue the story so it's not left on a cliffhanger like it is now. If you enjoy visual novels with some light puzzle elements I think there's a good bit to like with this one especially considering it's price. You could find a lot worse games that cost a lot more.

If you're still on the fence, I've started a video series on Youtube you can watch and decide for yourselves if this is something you might like:
